Clear Choice as the Finest
Interior Platform Lift*

INTERIOR PLATFORM LIFT

Joey – Simple, Convenient, Reliable

With powerful, proven performance and exquisite design, Joey delivers dependable transport for many scooters or power wheelchairs. Powered by the vehicle's battery and featuring one-button operation, Joey's large platform – handling mobility devices up to 28" wide – has drive on/drive off capability. Driving a scooter or power chair in reverse is never necessary. Utilizing a rack and pinion design with horizontal rail – perfected through almost twenty years of stairlift innovation – Joey prides itself with the most compact footprint in the industry. Second row seating is retained in almost all applications. Custom mounting kits fit a wide range of vehicle applications with little or no drilling. In most cases the vehicle's third row seating pockets are used for installation, helping to preserve the vehicle's resale value. All of this means one thing... get to know Joey!

As Easy as One... Two... Three.

Power platform down & drive on...

Raise platform and secure the belts...

Power platform into the vehicle.

Barrier Option

Peace of Mind...

The most visibly obvious safety feature of Joey is an optional, industry-exclusive barrier to prevent the scooter or powerchair from entering the passenger area during sudden stops. This marvelous option includes a pair of retractable belts with true one handed operation.

Joey Works With Many Types Of Mobility Devices...

Three or Four Wheeled Scooters

Mid-Wheel Drive Powerchairs

Front-Wheel/Rear-Wheel Drive Powerchairs
